

# Weatherproof Enclosure SXB-WP

For XBOXER size 2 - 6 Horizontal  
Dismantling and Assembly Instructions

## Weatherproof Enclosure

- Weatherproof construction
- For retro fitting on site
- Complete with bird/vermin mesh and internal airflow divider
- Available in 2 sizes

## 1.0 Delivery of Equipment

All equipment is inspected prior to despatch and leaves the factory in good condition. Upon receipt of the equipment an inspection should be made and any damage indicated on the delivery note. Particulars of damage and/or incomplete delivery should be endorsed by the driver delivering the goods before offloading by the purchaser. No responsibility will be accepted for damage sustained during the offloading from the vehicle or on the site thereafter.

## 2.0 Handling

Handle the units carefully to avoid damage and distortion. Use spreaders when lifting with slings to avoid damage to the casing. Care must be taken to ensure that slings are correctly positioned to avoid crushing and twisting of the unit.

## 3.0 Dismantling the enclosure

Before the chosen XBOXER horizontal fan unit can be installed into the weatherproof enclosure on site, the enclosure must be dismantled according to the following instructions. Units must be dismantled and fan unit installed in accordance with good industry practice, upright and level on a prepared base (which may include a suitably designed suspended platform).

## 4.0 Dimensions (mm)

Unit Code	Size	A	B	C	D	E	Weight Kg
SXB-WP	2 - 5	2400	1400	530	100	1800	62
SXB6-WP	6	2400	1400	880	100	1800	62

Figure 1.

Remove the 14 Screws from the unit roof top which is riveted into one piece.

Figure 2.

It will then be necessary to remove the roof from the unit and will require two people to undertake this exercise.

Figure 3.

Having decided if one or both sides are to be removed from the unit, remove the screws in the side(s) of the unit with a flat screwdriver. The side(s) will then simply slide out.

Figure 4.

The XBOXER unit can now be slid onto the base of the weather proof enclosure and installed. The sides and the roof of the weather proof enclosure can now be replaced using the screws previously removed.
