

EZPlate Wall Kit

Revit Model Features

1. These models are face-based models and must be inserted onto an existing **exterior** face or work plane in the project.

Making a square opening in the wall will be necessary to view the model correctly in the medium and fine detail levels.

Required wall opening sizes are:

P315WK: 362mm x 362mm
P350WK: 407mm x 407mm
P400WK: 470mm x 470mm
P450WK: 513mm x 513mm
P500WK: 560mm x 560mm
P560WK: 613mm x 613mm
P630WK: 661mm x 661mm
